

**Technical Data Sheet (TDS)**

**M-10w40 TURBO**

SEMISYNTHETIC PREMIUM MOTOR OIL

Produced of high-quality base oils with well-balanced additives package, providing good antifriction, anticorrosion, detergent and antioxidizing properties.

Temperature range :-27...+45 °C

**Application area** Intended for modern gasoline and diesel engines of passenger cars and vans (injector, multivalve, turbocharged, including fitted with exhaust fumes catalyts). It is an optimum choice for vast majority of foreign passenger cars and vans.

- Properties**
- Universal – could be used for mostly of engines of any configuration
  - Could be used for different operation regimes
  - Easy cold start in winter;
  - No high and low temperature deposits in the engine;
  - Compatible with all engine sealings;

**Compliance to international standards**

<b>SAE 10W-40</b>	MB 229.1
<b>API SG/CD</b>	VW 501.00
<b>ACEA A2/B2</b>	

Characteristic	Value
Kinematic viscosity at 100°C, mm <sup>2</sup> /s	14,2
Density at 20°C, kg/m <sup>3</sup>	881
Viscosity index	135
Pour point	7.0
Flash point in open crucible, °C	220
Alkalinity mg KOH/g	-30
