

ENERGY OILS

Technical Data Sheet (TDS)

TP-22 S

Turbine oil

Petroleum oil with antioxidant, anticorrosive and other additives

Temperature range

Application area Intended for high-speed steam turbines, and centrifugal and turbo compressors.

Used in cases, where oil viscosity provides the required anti-wear properties

Properties

- Improved oxidation stability
- extends oil and process equipment service life
- Improved operational safety due to reduced volatility of oil components;

Compliance with international standards

ISO 32

Characteristics	Value
K.viscosity @ 40°C, mm ² /s	28-32
Viscosity index	95
Density at 20°C, kg/m ³	870
Pour point, °C	minus15
Open cup flash point, °C	200
